

From the Editors Volume 9 Number 1

This edition is a hallmark for the Journal of Mathematics and Culture. We are very pleased to publish our first Portuguese language manuscript by Dr. Pedro Palhares. You may have noticed the Editors list has grown for JMC. With the addition of Dr. Milton Rosa, we are now positioned to consider manuscripts in Portuguese, thank you Milton. The addition of Dr. Iman Chahine also broadens the intended international appeal of JMC as Iman has positioned JMC to consider manuscripts in Arabic, thank you Iman.

We invite readers to consider submitting your work to the Journal. For those of you supporting Masters level and Doctoral level students, please encourage them to consider a submission to the Journal as well. Please see the author guidelines for further details on submissions for the journal.

In 2014 JMC, under the leadership of Dr. Rosa, collaborating with Dr. Daniel Orey and Dr. Maria Luisa Oliveras, published the abstracts from the 2014 International Congress on Ethnomathematics hosted by Professor Gerdes in Mozambique. We were all very saddened by the sudden passing of Dr. Gerdes'. It with a heavy heart that we also share the sad news of the passing of A. J. (Sandy) Dawson.

Iman Chahine, Ph.D., Georgia State University (USA)

Milton Rosa, Ph.D., Universidade Federal de Ouro Preto (Brasil)

Tod Shockey, Ph.D., University of Toledo (USA)
